Experience

Full Stack Developer, Biodata

July 2020 - December 2022

- Optimized web performance across all layers of the application.
- Created technical documentation for API endpoints, component architecture, and development workflows.
- Led code reviews and implemented best practices for maintainable code including consistent patterns, error handling, and modular design.
- Increased test coverage through unit and integration tests, establishing test-driven development for new features.
- Engaged in architectural planning, evaluating multiple solutions based on performance requirements, code complexity, and delivery timelines.
- Debugged production issues by analyzing logs, reproducing bugs, and implementing timely fixes.

Skills

- **Languages:** JavaScript/TypeScript, Ruby, HTML, CSS, SCSS
- **Frontend:** React, Redux, MaterialUI, Bootstrap
- **Backend:** Node.js, Express.js, MongoDB, Mongoose, MySQL
- **Tools:** Git, GitHub, Gitlab, AWS, Docker

Education

Full Stack Developer, Coding Academy

July 2025 - December 2025

An intensive 14-week bootcamp for experienced programmers.

Project-based curriculum covering modern frontend and backend technologies, culminating in a full-stack application.

Focused on elevating existing programming skills to meet current industry standards.

Full Stack Web Development, Wecode

June 2019 - February 2020

A professional and academic training program for full stack developers – IDC Herzliya and Experis Software R&D Ltd.
